

Your Quick Start Guide

Three tools. A few minutes. Better results from AI.

Each tool has a form that guides you. Just put what you know. The form does the rest.

The Ignition Point

LESS THAN 1 MINUTE

The Decision

Should you use AI for this
— or is there a faster path?

Answer 3 quick questions.
Get a clear recommendation.

*You might not need AI.
That's a win too.*

SPARKS Builder

3-4 MINUTES

The Structure

Gets what's in your head
onto the page — for AI.

Fill in what you know.
Only 3 fields required.*

*Say it messy. Ramble.
AI untangles it.*

ARC Boost

5-7 MINUTES

The Friction

Makes AI push back on
your thinking — on purpose.

Set your aim. Invite resistance.
Build something stronger.

*For high-stakes work where
your first idea isn't enough.*

It's This Simple

- ✓ **Pick a tool.** Start with Ignition Point, or jump straight to Builder. Your call.
- ✓ **Fill in the form.** Answer the questions with what you already know. Messy is fine.
- ✓ **Copy your prompt.** Paste it into any AI tool — ChatGPT, Claude, Gemini, Copilot. Works everywhere.

Six Elements to Build Your Custom Prompt

*SPARKS Builder uses these six elements. Only S (Task), P (Audience), and Category are required. The rest makes it stronger.

Include what you know upfront. Work smarter later.
